

# Mobil™ Car Care

## New Product Launch

Cosan Lubricants is delighted to announce exciting four new antifreeze and brake fluid product introductions to the Mobil™ Car Care range. New antifreeze and brake fluid introductions are manufactured to the most demanding Mobil™ quality and manufacturer approved standards, subjected to rigorous test procedures.

### Mobil Antifreeze Ultra

Concentrate with Glysantin®G40® (SiOAT) from BASF carries extensive manufacturer approvals from VAG Group, Porsche, MAN and Mercedes Benz trucks. It is available in 1ltr, 5ltr and 208ltr packs.

### Mobil Antifreeze Heavy Duty

Concentrate with Glysantin® G05® from BASF carries manufacturer approvals from Chrysler, Mercedes Benz, MAN B&W, Cummins, Ford North America, MTU, John Deere and JCB. It is available in new 5ltr and 208 litre packs.

### Mobil Brake Fluid DOT 4 ESP

is a high performance, low viscosity brake fluid for contemporary vehicles fitted with ABS and ESP traction control systems. Compatible for safe mixing with Mobil DOT 3 and DOT 4 brake fluids, it is available in 500ml packs, and meets the requirements of FMVSS 116 DOT 3/4, SAE J1703/J1704, ISO 4925 (Classes 3, 4 & 6).

### Mobil Brake Fluid DOT 5.1

is specially formulated for use in high performance vehicles. With a minimum wet boiling point of 180°C, it is compatible for safe mixing with other Mobil DOT 3 and DOT 4 fluids. Available in 500ml packs, it meets the requirements of FMVSS DOT 5.1, ISO 4925 and ISO 4925 (Class 3, 4 & 5.1)

**Key dates:** in stock and available for delivery from 24th November 2014
