

Penetrating Spray

Graphite formulation that lubricates mechanisms blocked by corrosion

Description

Penetrating Oil Spray is a penetrating, fast acting lubricant containing solid graphite.

Properties

Penetrating Spray is made from corrosion and moisture resisting, lubricating agents.

Penetrating Spray contains graphite; it penetrates, lubricates, repels moisture, protects against rust and prevents seizing.

Penetrating Spray is an aerosol that can be used in any position.

Applications

Penetrating Spray is particularly recommended for loosening rusted mechanisms (screws, bolts...).

Penetrating Spray lubricates surfaces quickly and penetrates the most seized or rusted metal parts for easy disassembly.

Penetrating Spray has many uses, for example, eliminating unpleasant noise, lubricating chains, temporary rust protection etc.

Specifications

	Unit	Value
Appearance	-	Liquid
Colour	-	Black
Propellant gas	-	Butane/Propane
Volume	ml	500

Health/Safety
