

Silicone Spray

Ideal for lubrication of plastics and elastomer parts

Description

Silicone Spray designed for food industry equipment where there is a possibility of incidental food contact.

Properties

Silicone Spray meets the FDA requirements for lubricants with incidental food contact, 21 CFR 178.3570 and is NSF H1 registered.

Silicone Spray doesn't contain animal derivatives and allergens listed in Annex II of Directive 2011/1169/EC on food ingredients.

Silicone Spray is formulated with full synthetic silicone base oil.

Silicone Spray has excellent oxidation and thermal stability.

Silicone Spray is a colourless lubricant for all applications other than metal-to-metal.

Silicone Spray has excellent compatibility with most plastics and elastomers.

Silicone Spray is moisture repellent, water resistant and anti-static.

Applications

Silicone Spray is recommended for the lubrication of machinery used in food and beverage processing and the packaging industry.

Silicone Spray is particularly recommended for the greasing of cylinders, slides, guides, axles, columns, rollers, conveyors, belts, etc.

Silicone Spray is also recommended for mould release for plastics and rubbers and as a general lubricant for plastic and elastomer parts.

Specifications

	Unit	Value
Appearance	-	Liquid
Colour	-	Colourless
Propellant gas	-	Butane/Propane
Volume	ml	500
NSF Registration	-	158904

Health/Safety

For information about safe handling and use of this product, refer to the Material Safety Data Sheet.

Storage & Handling

Caution pressurized container: protect from sunlight and other heat sources.

Use by Date

3 years after manufacture

Manufacture date can be identified from bottom of bottle as follows:

1. First 3 numbers indicate the day of the specific year (159 – means 159th day of the given year)
2. Letter to indicate production run on the day (A, B, C etc.)
3. Number to indicate filling line (between 1 and 5)
4. Last number for example 9 indicates the year – 2019
